WE HIT FOREIGN MARKETS

In our chamber, established in 1993, we focus on providing our members with the tools to maximize the benefits of membership in the Chamber. For each group of members, we assign a supervisor whose purpose is to help you make the most of the IGEEI network potential.

We gather either public, governmental and non-gov organizations, universities and companies. Our activities is delivered to the more than 15 000 entities by members, honorary members and associated members.

Our members are e.g. the National Mining Institute KOMAG, Upper Silesian Fund or Aglomeracja Opolska – Association of municipalities of Opole Province. We are the coordinator of Polish Technology Cluster consisted of wide range of Polish tech companies from IT, agri-tech, health-tech, mining, renewable energy and engineering sectors.

OUR SUPPORT

- We help our members in obtaining information on interesting business, scientific, scientific-implementation and socio-cultural projects.
- We support our members in the selection of appropriate domestic and foreign partners in accordance with the previously prepared analysis.
- We initiate the creation of export and investment consortia and support the process of managing them.
- We supervise the legal and political aspects of international cooperation, and as a Chamber of Commerce we have preferences in creating direct contact with foreign institutions and government administration.
- We organize conferences, trainings and webinars aimed at improving the competences of the members of the Chamber in the field of internationalization.
- We organize outgoing and incoming economic missions.
- We provide access to Polish and foreign trade offices run by IGEEI or partners of the Chamber.

“Coming together is a beginning. Keeping together is progress. Working together is success.”
